

HR10240 Series

HV C&I

Energy Storage Battery

Convenient: integrated with standard 19" rack, make the installation and maintenance quick and easy.

Safe and Reliable: low self-discharge rate, up to half year shelf life, LFP material ensure the safety and long cycle life.

Intelligent BMS: it has protection functions including over-discharge, over-charge, over-current and over-high or low temperature. The system can automatically manage charge and discharge state and balance current and voltage of each cell.

Eco-friendly: the whole module is non-toxic, non-polluting and environmentally friendly.

Flexible Configuration: batteries can be parallel or series connected to increase the capacity and power.

Wide Temperature: working temperature range is from -20 ~ 55°C, with excellent discharge performance and cycle life.

Rapic Charge/Discharge: up to 1C charge and discharge ability.
